INTRODUCTION

3055

The world as we know it has been destroyed and lay waste by what many now call – The Great Reckoning.

A 5,000-year-old prophecy had come to pass, when the Luxor's iconic sky beam aligned with the planet Mercury. A multi-dimensional rift cracked open, colliding the Metaverses and releasing Seth, the Egyptian God of War and Chaos.

A mysterious figure was also set free, aptly named *The Suicide King*, from imprisonment within a 2D world to revel in the spoils of a 3D existence and to fight for the innocent.

Those left behind – The Discarded – led by The Suicide King, now battle underground to survive the lawless state of 'Lost Vegas' versus Seth and his band of undead marauders.

PLATFORM

The Discarded is a set of 8,888 unique Suicide King characters that are in control of the "Lost Vegas" underworld. As a part of this series, the Suicide King controls many characters of the Discarded Society. The characters are made up of over 120+ custom hand drawn traits. The Discarded Genesis character is the key to unlock your passage into the Discarded Society.

Get access to the secret hidden treasures that await your journey into this vast Metaverse.

Join the battle and assemble your team of Discarded warriors to unlock the wealth of Sin City's hidden vaults, mystical chambers of play-to-earn gaming, and multi-dimensional tokenomic networks.
